

## All My Love – Hybrid Card Kit

Part of the  
“I can Craft Now” Range of Printable Kits

Photo shows downloadable “QuickCard” jpeg printed onto photo paper (left) and the finished hybrid card (right)

### Instructions for “Quick Card”

After downloading the file (which is a jpeg [picture] file), print the picture just as you would a normal 6x4 photograph, at best quality onto any paper, but for a glossy sheen use your photo paper. I printed the one illustrated onto a 6x4” sheet of photo paper choosing the “borderless” option on my printer preferences.

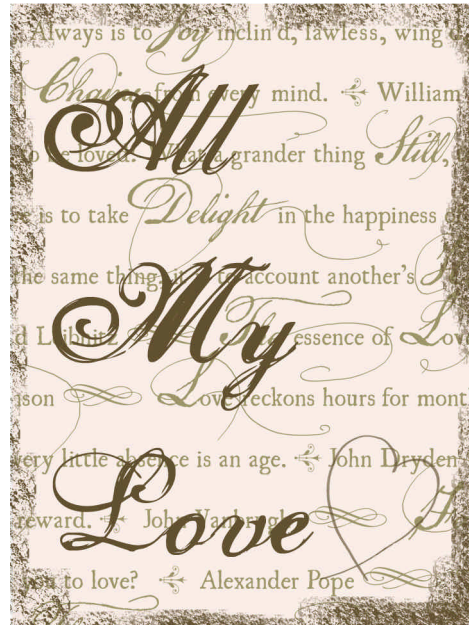

### Instructions for the Hybrid Card

1. Print out page 2 of this document. You may wish to use “best quality” and you may wish to print onto photo quality card, but I created the hybrid card pictured above by printing onto a slightly higher quality normal paper and at “normal” print quality setting. It is entirely your preference!
2. When you have printed the page, cut out the elements and arrange till you are happy.
3. Then stick together! It's that simple!

### TIPS for Great Cards

To make your cards even better, why not **ink the edges** of the papers (including the QuickCard). You may like to add ribbon, brads, glue on some buttons, or add anything other trinket you would like!

**Page 3 includes BONUS items for some different ideas! Enjoy!**

And don't forget you can make as many as you like, just keep printing! I am happy for you to make these cards to sell for charity, but I ask that you please credit their original design Source on the back of your cards.
